

# KLOEPFEL ENGINEERING

## Analyze and optimize your product and production costs with Cost Control

### The challenge

A problem many companies from different industries face: not knowing your own cross-departmental product and production costs.

This is where Kloepfel Engineering comes into play. Our self-developed software, Cost Control, can perform a product cost analysis. Regardless whether you're dealing with your own products or products you have acquired; Cost Control can be used for various production methods.

### Our Services

- Increase profit margins with target costing analysis
- Optimization of production, for efficient value creation
- Design to cost: cost-conscious and effective design
- Value stream mapping:  
The LEAN Product tool set can be used for cost reduction even after completed production
- Technical procurement: more quality & fewer costs
- Process optimization: cheaper production – reduce product costs by between 10 and 40%
- System design: analyze costs, recognize potential savings, support in negotiations
- Special solutions: custom assignment

### Our solution

Kloepfel Engineering and its software Cost Control, which is part of the Kloepfel Group, is a leading expert in product calculation. The award-winning software can show you how to minimize product costs whilst maximizing product quality.

A concept that works: Cost Control and Kloepfel Engineering have won ten awards in six years, showing that they meet high quality standards. It has been awarded the “Best of” industry (2014,2015,2017) and IT innovation (2012,2013,2014 and 2017) awards and the “Best consultants” award in 2014, 2015 and 2016.

### Your benefit

- Applicable to various production methods
- Consideration of different factors such as hourly rates, costs, tools, materials, wages and energy, also for international markets
- Highly user-friendly
- High transparency of costs
- Effective construction and production
- Saves commodities and materials
- Optimization of production time and method
- Savings of up to 20%

**„Only by knowing your own costs can you effectively and sustainably reduce them!“**

**Manfred Esser, Managing Director**
